An attempt to smear DA

To the Editor:

I saw the news story about the letter District Attorney Vic Feazell sent to Police Chief Larry Scott.

I have not paid much attention to the Henry Lee Lucas thing before except to know he didn't kill all those people, but now I will pay attention, as I see that City Manager David Smith and Chief Scott are involved in something aimed at muddying the reputation of the man who has done so much for justice here.

There is something ugly in all this. It is time the City Council got their heads out of potholes and budgets and looked at finding replacements for Smith and his "yes-man" Larry Scott.

Mrs. Z.V. Frazier
