Aug 24, 1986. Around 5:00 p.m.

paged out = Structure Fire very sharply Paged out again for Structure Fire - was in Route Old Lorena Rd + West Warren Rd, the Smoke was very black, like asphalt shingles on top house was burning.

When I got to 58 Angle Fire St, put my gear on went to left back house where fire was the building was completely burning.

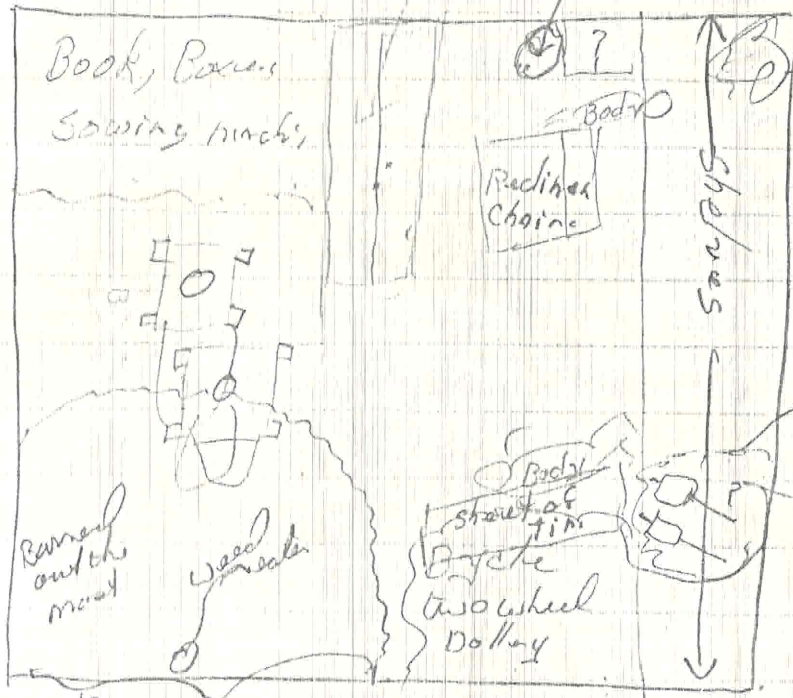

The electric wires to the house were burnt into on the ground. Hat side were against the light pole. front of the building was gone + the top was caved in. The front of the building right side of Door were still standing but on fire also right side of building

started pulling siding off to help get fire out later found out, two boys were missing, so got to looking in the Dabree + found the oldest boy told Glenn Nether + Ford. , short time later Adkins + Phil. were looking for the other one + found him ^{inside} for:

where the door was, had burned all the flooring out, there were Gas weed eater, two lawnmowers in that area, see sketch
